NAME- ADITYA RAWAT
ROLL NO.-1922001

```java
Class Student
{

    int roll no;
    String name;
    student (int roll no, string name)

    {

        this . roll no = roll no;
        this.name = name;

    }

void show ()
{
        system.out. println ("enter roll no--"+roll
                                            no);

        system.out.println ("enter name--"+name);

    }

}
Class Test Student
{   public static void main (String [] args)

    {
        student st1=new. student (1922001,"ADITYA
                                    RAWAT");
```

```
Set I, show ( );
}
}
```
